Allowable Subject Matter

1. Claims 12 and 21-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to claim 12, the prior art of record fails to teach a pair of temporary shelves configured to support the target substrate, and disposed to sandwich the support member when the articulated arm unit retracts, the temporary shelves being arranged not to rotate together with the articulated arm unit.

With respect to claims 21-24, the prior art of record fails to teach or fairly suggest a transfer apparatus for a semiconductor process as recited, wherein the sub-driving mechanism includes a pair of sprockets axially supported by the distal end arm, and a chain extending between the pair of sprockets, the chain being connected to the support member or wherein the sub-driving mechanism is connected to the main driving mechanism through a speed increasing device.

With respect to claim 25, the prior art of record fails to teach a semiconductor processing system as claimed and further comprising a first set of lifters and a second set of lifters disposed to surround the worktable.

With respect to claim 28, the prior art of record fails to teach a semiconductor processing system as claimed and further comprising a support member capable of reciprocating relative to the distal end arm while the articulated arm unit stretches and retracts.

With respect to all of the independent claims mentioned above, in addition to the failure of the prior art of record to disclose the features noted above, no other piece of prior art supplied motivation for providing and/or combining the features with the prior art of record to obtain the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
